Microsoft Office 2007 is set to improve collaborative working and to empower people to work in the way they need to. The powerful combination of Microsoft Office 2007 and SharePoint Server 2007 will combine to deliver effective portal solutions that enable people to work together and share information more effectively through special interest web sites.

Programme

9.30am	Registration
10.00am	'Benefiting from SharePoint in Office 2007' by Scott Johnson, Product Manager, SFW Ltd
11.15am	Coffee
11.30am	'An insight into Office 2007', by Simona Milham of the Microsoft Presentation Team
12.15pm	Panel question and answer session. Panellists to include Chris Mead from the East of England Development Agency (EEDA), Simona Milham of Microsoft, Scott Johnson and Peter Hornsby from SFW
12.30pm	Buffet lunch

SFW invites you to attend a half-day seminar which will show you how Microsoft SharePoint will work in Office 2007 to help your organisation:

- Engage Intranet users by offering valid, accurate and relevant content that they can find and share more easily to help them do their jobs more effectively.
- Manage content and streamline processes, particularly for unstructured content such as Microsoft Office documents, emails, web pages and industry-specific forms and information banks.
- Improve people's ability to make accurate, better-informed decisions through better access to relevant information.
- Realise cost efficiencies and genuine cost reductions through improved decision-making, enhanced productivity and better information management.

Venue: Everest 1 & 2, Microsoft Ltd, Microsoft Campus, Reading, UK RG6 1WG
